ACCREDITED PROFESSIONAL 2 DAY Rainwater Workshop

This two day AP-level workshop is an in-depth rainwater-harvesting course required for those seeking ARCSEA Accredited Professional (AP) status. This course provides attendees with knowledge for rainwater harvesting, both active and passive, design and installation for both outdoor and in-home rainwater use; sanitation for potable uses; rules and regulations, guidelines; business management; project planning; site and installation safety; and system construction and

maintenance. This course will deal with residential, irrigation and larger commercial installations. The course tuition will include A Rain Harvesting planning manual which has been expanded to include all of North America

The Mission of the American Rainwater Catchment Systems Association is to promote sustainable rainwater harvesting practices, to help solve potable, non-potable, Storm water and energy challenges throughout the world.
