JIM SAWGRASS

Take a trip back in time to the world of Native American Indians with Creek Indian Jim Sawgrass and other members of the Florida Creek Indian Tribe, who will bring to life the history and traditions of the tribes living in the Southeast. Indian languages, sign language, true Indian names, traditional outfits, weapons, hunting and cooking techniques and games will all be part of the program.

In addition to scheduled programs, Jim will also welcome CoastFest visitors at his encampment which portrays native American life during the 1700's.

RAPTORS & SNAKES

Highly evolved predator/prey relations, raptors as environmental indicators and venomous vs. non-venomous snakes are presented while hawks and owls fly over your heads and snakes make their way into your arms, if not your hearts!

The Center for Wildlife Education at Georgia Southern University offers opportunities to get up close and personal with eagles, pythons, giant owls, falcons, huge cockroaches, lizards and a team of other engaging wildlife.

ATSMAGIC

Contemplate the impossible, as magician Arthur Atsma dazzles your mind during three shows filled with captivating sleight of hand magic, audience interaction and comedy.

Enter the world of "The Magic Science Circus" where fast paced newtonian physics and marine science are taught through circus stunts and magic stunts... juggling, magic, plate spinning and lots of audience interaction! Arthur Atsma has been captivating audiences for more than twenty years with his unique shows and programs. Don't miss the fun!

EXCITING SHOWS!

DISCOVER! EXPLORE! INVESTIGATE! UNCOVER!

EXCITING EXHIBITORS!

Bubble artist Keith Johnson uses imagination and science to explore how bubbles work and what we can do with them.

See the Entertainers throughout the day at the Main Show Tents.
